SHIVAM MUKTARAM KHACHANE

Software / Application Engineer

Mumbai, Maharashtra, India | +91-7507883774 | shivamkhachane@gmail.com | LinkedIn

PROFESSIONAL SUMMARY

Application Engineer with 2+ years of experience developing and maintaining enterprise BFSI software using Java, JavaScript, and Oracle Database. Skilled in delivering reliable, regulation-compliant loan-processing workflows and collaborating across teams to resolve production issues. Strong foundation in object-oriented programming, relational databases, and full-stack web development, with hands-on project experience in machine learning and computer vision. Seeking to bring proven technical and problem-solving skills to a growth-focused software engineering role.

TECHNICAL SKILLS

Languages: Java, Advanced Java, JavaScript

Databases: Oracle, MySQL, SQL Server

Web Technologies: HTML, CSS, JavaScript

Tools & IDEs: Eclipse, VS Code, IntelliJ IDEA, MySQL Workbench, Git

Concepts: Object-Oriented Programming, SDLC, Database Design, REST-based Application

PROFESSIONAL EXPERIENCE

Application Engineer | Newgen Software Technologies Ltd. *Jan 2024 – Present*

- Collaborate with cross-functional teams across multiple BFSI software products, ensuring smooth client operations and delivering efficient, user-friendly solutions.
- Maintain and enhance the Retail Loan Procedure system, aligning functionality with evolving business requirements and regulatory compliance standards.
- Design and develop backend functionality using Java, JavaScript, and Oracle Database, streamlining loan-processing workflows, and improving system reliability.
- Troubleshoot and resolve production issues in coordination with clients and internal teams, minimizing downtime and improving customer satisfaction.

Web Developer Intern | Elite Software's *Feb 2023 – Mar 2023*

- Built and tested web application features using Java and SQL, gaining hands-on exposure to full-stack development and database-driven design.

PROJECTS

Book Management System | Personal Project

- Developed a Java-based desktop application integrated with MySQL to manage book inventory, supporting full CRUD operations for cataloging and tracking collections.
- Built and tested using Eclipse IDE and MySQL Workbench, applying relational database design principles.

American Sign Language Recognition using Computer Vision & Deep Learning | Team Project

- Built a web-based application using computer vision and deep learning to recognize and translate American Sign Language gestures in real time.
- Implemented gesture-classification models and an interactive interface using VS Code, collaborating within a team environment.

EDUCATION

B.E. — Electronics and Telecommunication Engineering *2020 – 2024*

Shrimati Kashibai Navale College of Engineering | CGPA: 9.05 / 10

12th Grade (HSC) *2020*

Bhimashankar Padalkar Junior College, Georai | 75.54%

10th Grade (SSC) *2018*

Alphonsa English High School, Aurangabad | 93.80%

CERTIFICATIONS

- Java Development — Udemy (Jan 2024) | MySQL and Database Design — Udemy (Dec 2023) | Interactive AR/VR App Development — Tech XR (Aug 2022)
